

【ATTENTION】

Fake Journal of Hard Tissue Biology website

As of November 2020, we have seen at least one fake website masquerading as the Journal of Hard Tissue Biology. (And there are likely more.)

They are using the same name, ISSN#, and a different email address. It is very probable that they will impersonate the editor-in-chief of the Journal of Hard Tissue Biology, sending a fake certificate of acceptance and PDF version of the author's paper, and then steal the publication fee.

Please be aware that it has absolutely no relation to the Journal of Hard Tissue Biology. We shall not be held responsible for any trouble arising from these fake websites.

Please access the correct Journal of Hard Tissue Biology website at:
